10.22.20

Dear your honor,

I am writing this letter in regards to my time served and possible early release from probation.

Since being released from Federal prison in 2018, I have maintained steady employment. On 7.25.18, I received a "10hr Osha 29 CFR construction 1926 Safety & health training certificate. On 7.26.18, I became "Safety Certified" by completing a flagging course. On 9.10.18, I completed a "Teaching Us professional attitude concepts" and received a certificate. On 3.4.2019, I started working my current job at "The University Consultation and treatment center for mental Hygiene, Inc". In April 2020, during the Covid-19 pandemic, I met my current girlfriend who is a nurse at Harlem Hospital. I have been assisting her with giving out boxes of food in the community. My girlfriend has been a positive role model in my life and I have learned a lot by watching how she care for

10.22.20

People. I would like to give the nursing field a try. I have learned that being convicted of a felony does not mean that I am exempt from becoming a registered nurse. I would like to be giving the opportunity to apply for dispositions for all of my past charges and present my case to albany.

To my understanding, probation is intended to assist me to integrate myself back into Society so that I can become productive. However, there have been more cons than pros.

Being on probation has caused me to have to randomly request a day off from work. This will eventually cause me to get terminated from my job.

I have also attempted to apply for more productive jobs and have been denied employment after informing them about probation.

Also, I have children and family members that are sick and in need of my presence that I am unable

to visit or care for due to the rules
of probation.

Lastly, I am respectfully asking
that you please take all of my
accomplishments, positive behaviors,
and goals into consideration. When
making a decision. I would like
to thank you in advance.

Sincerely, Yours,

Jermaine Nibbs
